Aileena Xie 

## 🎓 Education

| Montreal, QC | 🛡 McGill University | Sep. 2022 – May. 2025 (Expected) |
| --- | --- | --- |

- BSc. in Computer Science
- GPA: 3.75/4.00
- Relevant Courses: Object-Oriented Programming; Data Structures and Algorithms

## 💡 Projects

**Personal Website**                                    **GitHub**
- **Technologies: HTML, CSS**

**Crypto Bot**                                    **GitHub**
- Collaborated as a team of 4 during McHacks 2023 and entered the Tower Research Capital LLC. Challenge
- The NLP model was made from the OpenAI API, and fine tunes an existing model
- The chatbot provides responses to natural language inputs by the user on various topics of cryptocurrency statistics
- **Technologies: Python, Flask, HTML, CSS**

**Discord Bot**                                    **GitHub**
- Contributed to a collaborative project with friends
- Added a Cron Job to remind a friend to take a weekly gym progress picture
- The bot tags users and reacts to their messages with Emojis
- **Technologies: Typescript, AWS EC2, Postgres, Discord.js, DeepL**

**Reddit Bot**                                    **GitHub**
- Used the Reddit API to make a spam bot on Reddit that is ran as a Daemon
- The bot searches for comments and posts that it had not replied to and generates a randomised message
- **Technologies: Python**

**Wordle Game**                                    **GitHub**
- Prompts for user input on command-line to guess a five letter word that is randomised each game
- The user has five guesses, and the program outputs the color-coded user input to show how close they are to the solution
- **Technologies: Python**

## ⭐ Extracurriculars

**Girls Who Code**                    **Girls Who Code McGill**
- Gave sessions to students at Sacred Heart High School about the basics of Python as a team of facilitators
- Planned each session's activities and presentations
- **Skills: Teamwork, Communication, Creativity**

## 💼 Experience

| **Sales Specialist** |  Apple | May 2022 - Present |
| --- | --- | --- |

Product Zone Team
- Demonstrated knowledge in the products and services offered by the company to provide a complete solution based on specific customer needs
- Guided clients with the setup of their new devices
- Showed efficiency in teamwork and individual productivity
- **Skills: Teamwork, Communication, Multitasking**

## ⚗ Skills and Qualifications

| Programming | Frontend: HTML • CSS • React • NextJS • Tailwind |
| --- | --- |
| | Languages: JavaScript • TypeScript • Java • C • Python • Bash |
